Happy Feed Bird Consciousness Project at St John's.

Tuesday, the 30th September 2014 saw all the St John's Prep in the Quad for the presentation of the prizes for the best Bird Feeders made over the previous two weeks. All the feeders were on display and most had used only recyclable materials in the manufacture.

Bird Feeders from recycled materials

Some of the Prep Feeders.

The design, ingenuity and enthusiasm that went into the Challenge was wonderful to see. Some of the feeders were accompanied with photographs of the progress from a visit to the dump to find materials to dad's workshop to size the materials, screw or glue them together and then to lots of pictures of different birds on the feeder, hanging in the garden.

Groundbreaking bird guide unlocks sound from pictures

Birds of South Africa by Saartjie Kidson and Herman van Niekerk perfectly combines presentation and format with Callfinder® technology. Professionals and novices alike are ecstatic about the portable, user-friendly Callfinder® that unlocks sound from the pictures. Practical and logical grouping, interesting facts and user-friendly features make this publication a must for any nature lover.

Book and Call Finder available from all our shops and our website www.happyfeed.co.za at R 950 incl. VAT.

Zeiss Binoculars will soon be available from our shops. We will be stocking only those suitable for bird watching. Watch this space

Sincerely,

Keith Quiding
